Sub-processors

Yorkville Advisors B.V., trading as Struktürs, uses the following providers. This list forms Annex III of our [Data Processing Agreement](#). We give customers at least 14 days' notice before adding or replacing a sub-processor of Customer Data, except where a change is needed urgently for security, to comply with law or to keep the Service running, when we notify as soon as practicable (DPA section 6.2).

Sub-processors of Customer Data

Provider	What it does for us	Data	Location
Google Cloud (Google Cloud EMEA Limited)	Hosting, storage, databases, encryption keys, logging, audit	All Customer Data	Your workspace's region: London (UK) or Johannesburg (South Africa). Platform services: London (UK). Monitoring metadata: global
Google Cloud (Google Cloud EMEA Limited), Vertex AI: Claude, a model made by Anthropic and run by Google	AI generation for Ask, Board Packs and knowledge capture	The content of a request (see our Privacy Policy, section 5)	Belgium (EU). UK and South Africa workspaces

Provider	What it does for us	Data	Location
Google Cloud Vertex AI: Gemini and text embeddings	AI generation (and the fallback when Claude is unavailable), search indexes, account mapping	The content of a request	London (UK)
Google Cloud Document AI	Reading text from uploaded narrative documents	Uploaded documents	European Union. UK workspaces only
Clerk, Inc.	Sign-in and workspace membership	Users' names, email addresses, memberships, sessions	United States
Resend (Plus Five Five, Inc.)	Service emails (invitations, notifications)	Email address, message content	United States
Google Workspace	Email for support and privacy requests	Correspondence	European Union and United States
HubSpot (HubSpot Netherlands B.V.)	Customer relationship records, support inbox and service emails	Contact details, application answers, meeting details, support correspondence	European Union (Germany). Usage data is processed in the United States, and HubSpot staff in other countries may access data for support

Other service providers (for our own processing)

These process data for which Struktürs is the controller, as described in our [Privacy Policy](#).

Provider	What it does for us	Data	Location
Stripe (Stripe Payments Europe, Limited)	Payments and invoicing	Billing contact and payment details	Worldwide (named: United States and India)
Google Analytics	Website analytics, with consent	Pseudonymous website usage	Global

Our providers' own sub-processors

Our providers use their own sub-processors, which they list and update, for example: Google Cloud (cloud.google.com/terms/subprocessors), Clerk (trust.clerk.com), Resend (resend.com/legal/subprocessors), HubSpot (legal.hubspot.com/sub-processors-page) and Stripe (stripe.com/legal/service-providers). We pass on their notices of change as our Data Processing Agreement describes.

Changes

Date	Change
2026–10–14	First published list. Compared with the unpublished 2026–10–09 draft: HubSpot is now hosted in the European Union (Germany), and Claude in Belgium also serves South Africa workspaces
